WORK EXPERIENCE

ZOOMLOCAL | FULL-STACK DEVELOPER

Pune, India | Sept 2023 – Jan 2025

- Collaborated with cross-functional teams to design and implement **Fly Social**, a social media management application.
- Utilized **Vue.js, React.js, Node.js, Express.js, Google Cloud Storage (GCS) and Firebase Firestore** to build responsive and scalable features.
- Designed and implemented a custom **Calendar UI** with three iterations to enable scheduling and viewing posts seamlessly.
- Developed a **Cron job** to generate and deliver daily post statistics to users.
- Enhanced the UI to be **mobile-friendly**, ensuring seamless usability across devices.
- Contributed to and utilized **Figma** for **UI/UX** design and prototyping.
- Ensured seamless **cross-platform posting** functionality, integrating APIs for platforms like **Facebook, Twitter, Instagram, Pinterest, Tumblr, Reddit, YouTube, and LinkedIn**.
- Enhanced efficiency for content creators and marketers through streamlined **scheduling, real-time previews, and daily analytics**.

SIRHOW | FRONTEND DEVELOPER INTERN

Noida(Remote), India | Nov 2022 – May 2023

- In my role as a **FRONTEND DEVELOPER**, I am responsible for reviewing the **WordPress** files and subsequently transforming them into HTML, CSS, and JS formats. Once the conversion is complete, I proceed to publish them on the SirHow platform.
- Implemented modern web design principles, focusing on user experience and accessibility standards to create intuitive **WEBSITE ARTICLES**.

DRAFTEQ | BACKEND DEVELOPER INTERN

Delhi(Remote), India | Apr 2023 - May 2023

- Collaborated with the development team to design and implement new features for the **WEB APPLICATION**. Utilized **NODE JS AND EXPRESS JS** to create robust and efficient server-side logic.
- Built **RESTful APIs** that facilitated seamless communication between the front-end and back-end, enabling smooth user interactions. Implemented request validation and error handling to enhance API reliability.

PROJECTS

AI SASS PLATFORM

NEXT.JS 13, REACT, TAILWIND, PRISMA, STRIPE, REDUX

- Developed AI SaaS application skillfully designed with cutting-edge technology. This dynamic application, built on the foundation of Next.js 13, React, and Tailwind, seamlessly **Integrates Conversation, Image, Video, Music and Code generation** capabilities like ChatGPT.

FOOD ORDERING APP

REACT, NEXT.JS, PRISMA, POSTGRES SQL, AUTH.JS, STRIPE, DOCKER, ZUSTAND

- Developed full-stack food ordering app, where users can login and add food to cart and buy making real payment used **Auth.js** for authentication. At the heart of our app lies **Prisma**, an advanced database toolkit, paired with **PostgreSQL**, ensuring data integrity and efficient management of orders, menus, and user profiles.
